SUMMARY

I am an innovative Software Developer with 4+ years of experience delivering scalable front-end and back-end applications. I am proficient in JavaScript (React.js, Node.js), Php, and modern development methodologies, including Agile. I am adept at debugging, performance optimization, and collaborating across product, design, and QA teams to build efficient, user-focused solutions.

WORK EXPERIENCE

Full Stack Developer, BuildNet

2025 - Present

- Engineered and deployed 30+ RESTful API endpoints using Node.js/Express to support new user features.
- Designed and optimized transaction workflows, including debit/credit operations, reconciliation, and integrations with payment gateways.
- Implemented authentication, authorization, encryption, and audit logging to meet regulatory standards.
- Optimized slow API routes in a legacy Node.js application by refactoring non-blocking I/O operations and leveraging the native Async/Await syntax, reducing endpoint response times by **30%**.
- Optimized database structures and queries to ensure data consistency and ACID compliance.

Frontend Developer, Dreckline Technologies

March 2024 - Present

- Refactored codebases to improve application responsiveness and reduce load times, enhancing overall user experience.
- Collaborated closely with backend developers to seamlessly integrate RESTful APIs with the frontend components.
- Actively participated in team meetings where key architectural and product decisions were made, contributing insights to improve feature planning and implementation

Web Development Trainer (Full Stack Developer)

April 2024 - Feb 2025

- Trained 20+ aspiring developers in full-stack development (JavaScript, Node.js, React, Git).
- Designed project-based curriculum aligned with real-world software engineering best practices.
- Led sessions on debugging, testing, and Agile collaboration strategies.

Next.js Developer - RioTech

Jan 2023 - Dec 2023

- Developed and maintained scalable full-stack web applications using React.js, Node.js, and REST APIs.
 - Collaborated with cross-functional teams in Agile environment;
 - Participated in sprint planning and peer code reviews
 - Troubleshoot and debugged complex technical issues to maintain software quality Integrated third-party libraries and APIs to enhance functionality
-

TECHNICAL SKILL

- **Languages & Frameworks:** JavaScript, Php, Laravel, Node.js, React, Express.js, MongoDB, PostgreSQL, SQL, Next.js, TailwindCSS, HTML5, CSS3
- **Tools & Practices:** Agile & Scrum, Git & GitHub, REST APIs, Debugging & Testing, Code Reviews
- **Soft Skills:** Problem-Solving, Collaboration, Adaptability, Time Management, Attention to Detail

EDUCATION

Higher National Diploma in Computer Engineering Sep 2017 - Dec 2019

National Diploma in Computer Engineering Sep 2014 - Dec 2016

CERTIFICATION

Health, Safety and Environment(HSE) 1, 2 & 3

Advanced Health, Safety and Environment

Human Resource Management
